SOWING WINDOW

June July August September October

Recommended Sowing Period
Potential Sowing Period depending on seasonal conditions

LG Aviron has proven popular with growers across the UK because of its leading Autumn growth and disease resistance package. LG Aviron has very rapid autumn growth allowing farmers the flexibility to drill when conditions are best. LG Aviron has an exceptionally high resistance to light leaf spot - a yield robbing disease now endemic across the UK. The importance of this trait is reflected in its untreated gross output of 107%
