

**SUGGESTED USE:** **GRAZE** | **CUT/GRAZE** | **GRAZE** | **CUT/GRAZE**

- *Very early bite and silage*
- *Responds well to high and low inputs*
- *Very high yielding*
- *Winter hardy and drought tolerant*
- *Resistant to poaching*
- *Superb hay*
- *Rapid establishment*
- *Quick recovery from cutting*
- *Excellent ground cover*

## Blue Circle constituent graph:

- Intermediate Perennial Ryegrass (Dip) 560 seeds/m<sup>2</sup>
- Intermediate Perennial Ryegrass (Tet) 150 seeds/m<sup>2</sup>
- Late Perennial Ryegrass (Dip) 340 seeds/m<sup>2</sup>
- Late Perennial Ryegrass (Tet) 350 seeds/m<sup>2</sup>
- Hybrid Ryegrass (Tet) 70 seeds/m<sup>2</sup>
- Timothy 620 seeds/m<sup>2</sup>
- White Clover 350 seeds/m<sup>2</sup>

EARLY SPRING GROWTH

PERSISTENCY

PACK SIZE

Blue Circle is a multi-purpose, long term mixture designed for the farmer who wants exceptional all-round performance from his grass.

## Excellent big bale silage

Blue Circle achieves this by having a selected range of ryegrasses of different heading dates and growth habits. Silage with a high dry matter is readily achieved with Blue Circle.

## Top class grazing

Blue Circle is ideal for long term grazing of sheep and suckler cows. By using a carefully selected blend of Ryegrasses, Clover and Timothy, grass with high digestibility, sugar and protein content is produced.

## Blue Circle is available in a number of variations:

- **Blue Rotation (without clover)**
- **Organic Blue - Available with organically produced constituents**
